17	BassAmp	DI-Box		
18	GuitarAmp	SM 57		
19	MASCHINEPad			XLR left
20	MASCHINEPad			XLR right

It is important to note the sound based technical acceptance of the bass guitar. Since we don't have a second guitarist, the bass takes on parts of the frequency spectrum of a guitar. For a successful sound, the bass must be picked up via a microphone. If you have any questions, we can answer them in a clarifying conversation.
